How This Study Was Conducted	iii
Acknowledgments	v
Acronyms	ix
Executive Summary	xi
Section 1: Our National Transmission System Today and Tomorrow	1
The U.S. Electricity Transmission System is Under Stress	5
Toward the Transmission System of Tomorrow	7
Section 2: The National Interest in Relieving Transmission Bottlenecks	9
Major Eastern Transmission Bottlenecks	11
Major Western Transmission Bottlenecks	15
The Costs of Transmission Congestion	16
The Benefits of Wholesale Electricity Markets Today	19
Next Steps Toward Relieving Transmission Bottlenecks	19
Section 3: Relieving Transmission Bottlenecks By Completing the Transition to Competitive Regional Wholesale Electricity Markets	23
Establishing Regional Transmission Organizations	24
Increasing Regulatory Certainty and Focus	29
Section 4: Relieving Transmission Bottlenecks Through Better Operations	37
Pricing Transmission Services to Reflect True Cost	39
Increasing the Role of Voluntary Customer Load Reduction, and Targeted Energy Efficiency and Distributed Generation	41
Using Improved Real-Time Data and Analysis of Transmission System Conditions	45
Ensuring Mandatory Compliance with Reliability Rules	46

Section 5: Relieving Transmission Bottlenecks Through Effective Investments	49
Implementing Regional Transmission Planning	50
Accelerating the Siting and Permitting of Needed Transmission Facilities	53
Ensuring the Timely Introduction of Advanced Technologies	61
Enhancing the Physical and Cyber Security of the Transmission System	68
Section 6: DOE’s Commitment and Leadership	71
Consolidated List of Recommendations	75
Appendix A: Policy Office Electricity Modeling System (POEMS) and Documentation for Transmission Analysis	80
Appendix B: List of Participants at DOE National Transmission Grid Study Public Workshops and Written Comments Received by DOE	86
Appendix C: Glossary	89
Issue Papers: (under separate cover)	
Transmission System Operation and Interconnection	
Reliability Management and Oversight	
Alternative Business Models for Transmission Ownership and Operation	
Transmission Planning and the Need for New Capacity	
Transmission Siting and Permitting	
Advanced Transmission Technologies
